I want to express my sincere appreciation to Dr. James Kercher and Nick Rossi, PA for making my challenging journey in 2018 so successful. Having two reverse shoulder replacements in one year was a challenge both physically and emotionally.

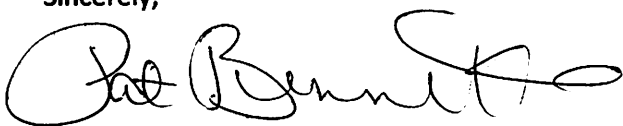

Dr. Kercher, thank you for the excellent work you did that totally eliminated the severe pain I was experiencing in both shoulders, from degenerative osteoarthritis. My mobility continues to improve with the help of NMotion, a great team of physical therapists.

Nick Rossi, thank you for watching over my recovery and providing me with the care and encouragement, always being positive, that I needed to stay positive during my journey. I always left my check up visits with you feeling better and more encouraged.

I feel so fortunate to have had the care of such professional and personal individuals at Peachtree Orthopedics and NMotion.

You guys are just the best! Charlie thanks you too.

Sincerely,
